## **ABOUT THE WORKSHOP**

This workshop brings together learners and practitioners to share how focusing-oriented therapy through an Indigenous lens can contribute to the health and wellness in Indigenous communities. This method has been developed to address complex and intergenerational trauma primarily in the Indigenous Canadian context.

You will have an opportunity to network with fellow learners and practitioners and improve your client care.

This approach is a clinical and land-based approach that benefits practitioners who work with residential school survivors, those with addictions, and survivors of sexual, physical, and emotional abuse.

## **WORKSHOP THEMES**

- Foundation of focusing-oriented therapy through an Indigenous lens
- Facilitating posttraumatic growth and living connection: Working with this methodology and complex trauma
